

QUALITY POLICY

Rubió Metabolomics S.L.U. combines the solid experience and knowledge of OWL Metabolomics, being **pioneers in metabolomics with more than 20 years of expertise** and a vision focused on innovation and excellence. We are at the forefront of biotechnology by applying metabolomics to offer **high-value services for research** and the development of healthcare products for *in-vitro* diagnostics, contributing to personalized medicine and improved health.

We guarantee the **highest quality** in our services through a management system certified according to the UNE-EN ISO 9001:2015 Standard. Our in vitro diagnostic healthcare products are developed and manufactured under a certified system according to UNE-EN ISO 13485:2018, complying with all the essential safety requirements established by Directive 98/79/EC, transposed in Spain through Royal Decree 1662/2000, including the applicable transitional provisions.

Purpose

At Rubió Metabolomics, our approach is clear: we use metabolomics to drive discoveries that can improve patients' lives and generate innovation. Our clients will find a dedicated team, working together to turn scientific knowledge into practical solutions for the real world.

Vision

We see a future where our work can bring significant improvements in different fields of knowledge, society, and health. Guided by trust, teamwork, and a clear idea of what the future should be, we aspire to improve everyone's lives.

Additionally, the Management highlights the following fundamental **VALUES** of Rubió Metabolomics:

SERIOUSNESS AND PROFESSIONALISM: Our goal is to do the job better every day, developing the necessary means to guarantee stakeholders an optimal result.

COMPETENCE: Our true value is **HUMAN CAPITAL**. We have highly qualified staff for the development of our activities. Thanks to work, commitment, and effort, Rubió Metabolomics has become a benchmark in metabolomics. We work as a team, encouraging the participation of everyone in the organization.

CUSTOMER SERVICE: Our objective is to meet the needs of our clients and provide products and services that, comply with current legislation, satisfy the requirements established by them.

TRAINING AND CONTINUOUS IMPROVEMENT: We promote the development of our staff's skills and the improvement of our products and work processes according to the requirements of all interested parties.

MARKET SURVEILLANCE AND RISK MANAGEMENT: We implement systematic procedures for surveillance, monitoring, and risk management, in order to guarantee the safety and performance of *in-vitro* diagnostic healthcare products and the quality of the services provided.

The Management of Rubió Metabolomics ensures that its Quality Policy is understood and accepted by all staff and is made available to all interested parties through its website.
